

AICOT

AI-Driven Cyber Defense Platform for Operational Technology Environments in Critical Infrastructure

HOW AICOT WORKS

1

EXTENDS LOGSTAIL PLATFORM

Builds on Logstail's proven SIEM and data analytics capabilities.

2

ADDS ADVANCED AI-DRIVEN OT SECURITY

Leverages machine learning and threat intelligence for OT protocol analysis, anomaly monitoring and threat detection.

3

ENHANCES REAL-TIME RESPONSE

Enables faster incident detection and response with automated correlation and alerts.

4

STRENGTHENS CRITICAL INFRASTRUCTURE

Delivers a scalable, production-ready European solution that strengthens cyber resilience and protects essential services across Europe.

AICOT KEY CAPABILITIES

AI Threat Detection

Detect and respond to threats in real time using advanced AI and analytics.

OT Network Monitoring

Continuous visibility across OT networks and industrial assets.

Industrial Asset Visibility

Discover, inventory and monitor all industrial assets and protocols.

Centralized Incident Response

Streamline investigation and response from a unified SOC dashboard.

WHY AICOT?

AICOT extends Logstail's existing platform with advanced AI-driven capabilities for OT environments, strengthening cyber resilience and protecting essential services across Europe.

AI-Powered Innovation

Stronger Cyber Resilience

European Sovereignty

Operational Excellence
